QA Assesment

1. Have a look in image in PO while i'm creating PO, but aek bat samjo ki jb me ye PO Generate krta hu to vo konse piece ke liye select krta hu vo bhi to ana chahiye na ex. Farsi kurti ka mujhe fabrc ke liye PO generate kr rha hu to vha pe products bhi show honi chahiye jaha se hm product select kr paye to hame pta chahle ki is product ke liye hm vo PO generate kr rhe hai, Jb Po ye generate kr rhe hai to uska form me detailes bahot limited hai fill ke liye ab samjo ki mene farsi kurti ke liye 3 clor choose kiya to 3 clor ka fabric mangava rha hu to vo sb option to hona chahiye jisse me detailed me po bana pau ye aek option nai hai ki hm sirf po banate hai fabric ke liye hm bahot sari chizo ke liye banate hai po to vo samjke banana padega hame ye form, to iske liye pura plan karna padega

2. Abhi dekho mene PO generate krke kapda recieve ho gya entry to software ho ho jati hai ab samjo ki hme jo order hoga uske liye PP Sample banana padta hai jo aek saple client leta hai aek sample hamare pass hota hai to uska bhi hm photo ke sath entry rakhni chahiye, phir samjo ki ye jo sampling hai usme bhi hm jo products upload krte hai to vo sare products yha pe show hona chahiye na tabhi to hm vha se select karenge ki ye sampling konsa kr rhe hai agar select krna hai to kr sakte hai baki agar new sample develop kr rhe hai to direct hi entry krenge

3. A bhi dekho sales order to yha bhi hme sample catlog wali images show krni chahiye na quki smajo ki mene agar jb sample dikhata hu tabhi pass hota hai to vo sample to already catloge me hoga uski costing ke sath hme vhi saple ko sara track krna hai usi id ke sath aur kuch nai samjo TM bat ko hme simple sytem hi rakhenge jb yha se sales oreder creat hoga jo hmne sara costing niakala tha uski ka samj aya ? ab ye jo hai sales order vo bhi bahot detailed hona chahiye ki kya kya hme dene wale hai uska pura colors ke sath to ye bhi bahot plan akrke banana padega

4. Abhi mene production me gya to vha se ye kam hi nai kr rha hai production job wala fro sales order aa hi nai rha hai, dekho yha bhi option ana chahiye na taki hm jo piece jo sampling kr chuke hai vo select kr paye aur phir hm production chalu kr paye, production ke abd ata hai delievery tak phir bill banta hai and payment collect hota hai agar credit pe diya hai to credit set krna pade ki kitne din ka credit diya hai sab , to samjo hm jb aek costing bana dete hai na vhi wala piece sab jageh gumega isse kya hoga ki hme exact pata chalega ki kitna kharcha kis kis chiz pe hua kitna actual profit hua hai vo sab kuch samj aya? Actal me hmne kitne me becha sab kuch ye samj aya ? So Plz make a detailed plan accordingly act as architect
